Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing".But not knowing is not always obvious or clearly understood.That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.

Abstract. We use a unique administrative dataset of over 10,000 taxi drivers in Singapore to study the labor supply decisions of these drivers. Our results indicate that both intra-day and across days, cab drivers deviate from the neoclassical economic model and that their labor supply is affected by a reference level of income.

The term and its various definitions. The discipline was renamed in the late 19th century, primarily due to Alfred Marshall, from "political economy" to "economics" as a shorter term for "economic science". At that time, it became more open to rigorous thinking and made increased use of mathematics, which helped support efforts to have it accepted as a science and as a separate discipline ...
