

from shyness to social pdf

Shyness (also called diffidence) is the feeling of apprehension, lack of comfort, or awkwardness especially when a person is around other people. This commonly occurs in new situations or with unfamiliar people. Shyness can be a characteristic of people who have low self-esteem. Stronger forms of shyness are usually referred to as social anxiety or social phobia.

Social Anxiety is an anxiety disorder where we believe that others will judge us negatively ("they'll think I'm an idiot" etc), and it is therefore experienced most acutely in situations when we are with other people. Our attention is very self-focussed - on what we must look like to others, what they might be thinking of us, trying to interpret every glance or other unspoken gesture or ...

While gifted students look perfect on paper, their teachers know that in the classroom they are not all the academic angels and stellar scholars that people assume they are. Successful teachers of the gifted require a special understanding of their students' social and emotional needs. Here's a ...
