The British Aerospace 125 is a twinjet mid-size business jet. Originally developed by de Havilland and initially designated as the DH125 Jet Dragon, it entered production as the Hawker Siddeley HS.125, which was the designation used until 1977. Later on, more recent variants of the type were marketed as the Hawker 800.. The type proved quite popular overseas; more than 60% of the total sales for ...

### **British Aerospace 125 - Wikipedia**

A sandwich-structured composite is a special class of composite materials that is fabricated by attaching two thin but stiff skins to a lightweight but thick core. The core material is normally low strength material, but its higher thickness provides the sandwich composite with high bending stiffness with overall low density.. Open- and closed-cell-structured foams like polyethersulfone ...

Course overview. Our BEng (Hons) Aerospace Engineering includes a range of fundamental topics in mechanical engineering, electrical and electronic engineering, materials engineering and design, as well as specialist aerospace and aeronautical topics such as aerodynamics, aircraft performance, flight dynamics, avionics, aircraft systems, aircraft structures, aircraft design and propulsion systems.
