The Great Abbreviations Hunt

In organizations, users' compliance with information security policies (ISP) is crucial for minimizing information security (IS) incidents. To improve users' compliance, IS managers have implemented IS awareness (ISA) programs, which are systematically planned interventions to continuously transport security information to a target audience.

Prevention is better than cure! Designing information

Frank Patrick's Focused Performance Business Blog This Focused Performance Weblog started life as a "business management blog" containing links and commentary related primarily to organizational effectiveness with a "Theory of Constraints" perspective, but is in the process of evolving towards primary content on interactive and mobile marketing.
