

### **recent advances in electroorganic pdf**

Probably the first application of a non-selective separator in an electrochemical process was an electro dialysis process proposed for sugar syrup demineralization in 1889 by Maigrot and Sabates. The term "electrodialysis" (ED) was not used until about 10 years later. It should be stressed that only after 1930 did ion-exchange materials on a polymer basis start to be produced, initially in ...
