Reliable structures, very precise drawings. CYPECAD was brought about to carry out the analysis and design of reinforced concrete and steel structures, subject to horizontal and vertical forces, for houses, buildings and civil work projects.. Its use guarantees maximum analysis reliability and the best drawing design, including the following elements:

CYPECAD. Analysis and design of reinforced concrete and

Chapter 11 SEISMIC DESIGN CRITERIA - Civil Engineering

This report presents information and tips on seismic behavior and design of gusset plates used in steel concentrically braced frames. Gusset plates are used in steel building structures to connect the bracing members to the beams or columns.

Steel Tips from the Structural Steel Educational Council

Michel Bruneau, P.E., P.Eng., is Professor in the Department of Civil, Structural, and Environmental Engineering at the State University of New York at Buffalo, and an ASCE Fellow. He is a member of various AISC and CSA committees developing seismic design specifications for bridges and buildings.

Ductile Design of Steel Structures, 2nd Edition: Michel

This Steel TIPS presents information on design of steel shear tab connections using the "AISC Unified ASD/LRFD" format. This is the new format being adapted by the AISC in it's 2005 specifications.

Steel Tips from the Structural Steel Educational Council

Seismic analysis is a subset of structural analysis and is the calculation of the response of a building (or nonbuilding) structure to earthquakes. It is part of the process of structural design, earthquake engineering or structural assessment and retrofit (see structural engineering) in regions where earthquakes are prevalent.. As seen in the figure, a building has the potential to 'wave' back ...

Value and Benefits of Modular construction - Design for Homes

The Eurocodes are a set of structural design standards, developed by CEN (European Committee for Standardisation) over the last 30 years, to cover the design of all types of structures in steel, concrete, timber, masonry and aluminium. In the UK, they are published by BSI under the designations BS EN 1990 to BS EN 1999; each of these ten Eurocodes is published in several Parts and each Part is ...
