

slices of life from pdf

Slice of life describes the depiction of mundane experiences in art and entertainment. In theater it refers to naturalism, while in literary parlance it is a narrative technique in which a seemingly arbitrary sequence of events in a character's life is presented, often lacking plot development, conflict and exposition, and often having an open ending.

Slice of life - Wikipedia

Thin-slicing is a term used in psychology and philosophy to describe the ability to find patterns in events based only on "thin slices", or narrow windows, of experience. The term means making very quick inferences about the state, characteristics or details of an individual or situation with minimal amounts of information.
