

smart parenting raising happy pdf

Parenting or child rearing is the process of promoting and supporting the physical, emotional, social, and intellectual development of a child from infancy to adulthood. Parenting refers to the intricacies of raising a child and not exclusively to the biological relationship. The most common caretaker in parenting is the biological parent(s) of the child in question, although others may be an ...

BRAIN RULES FOR BABY How to Raise a Smart and Happy Child

According to a literature review by Christopher Spera (2005), Darling and Steinberg (1993) suggest that it is important to better understand the differences between parenting styles and parenting practices: "Parenting practices are defined as specific behaviors that parents use to socialize their children", while parenting style is "the emotional climate in which parents raise their children".
