

DOWNLOAD SOCIAL SOFTWARE ENGINEERING DEVELOPMENT AND COLLABORATION WITH SOCIAL NETWORKING

social software engineering development pdf

Social engineering, in the context of information security, refers to psychological manipulation of people into performing actions or divulging confidential information. This differs from social engineering within the social sciences, which does not contain the divulging of confidential information.

Social engineering (security) - Wikipedia

In software engineering, a software development process is the process of dividing software development work into distinct phases to improve design, product management, and project management. It is also known as a software development life cycle. The methodology may include the pre-definition of specific deliverables and artifacts that are created and completed by a project team to develop or ...
