Sunspot counts range from a low of near 0 at the bottom of the cycle to 100 to 200 at their peak. One of the final contributions of Collins's™ long career as an investment counselor and writer was the following early warning signal: "An important stock market peak has been witnessed or directly anticipated when, in the course of each new sunspot cycle, the yearly mean of observed sunspot ...

Socioeconomics (also known as social economics) is the social science that studies how economic activity affects and is shaped by social processes. In general it analyzes how societies progress, stagnate, or regress because of their local or regional economy, or the global economy. Societies are divided into 3 groups: social, cultural and economic.
